

Peter Miller is the elected Deputy Chair and Chairperson of the Engineering and Works Sub-Committee.

I was born in the UK, close to London, and came to Australia for six months in 1969, have been here ever since. Yes I do follow Manchester United.

I came to Weipa with my wife and three daughters in March 1985 from Skipton in Western Victoria where I held public office being elected on to the Skipton Water Trust. I do follow Collingwood.

During my time in Weipa I have worked for Comalco and also ran a local business, the Bully. Two of my daughters and their families are living in Weipa, and I have five grandchildren attending the Western Cape College.

I am very concerned that Weipa residents are missing out on so much from both the Federal and State Governments. Because of our status we are not recognized as a local council by either but as a department of a multinational mining company.
